

# ZISA Business Wireless AP

## Indoor Access Points

### W300a 2.4G,300M,2 FE LAN,Ceiling Mount

#### Features

When device failures happen, you can get an alert and act accordingly.

Visual display delivers real-time monitoring of device status.

Intuitive wireless roaming enhances strong, steady and speedy networking experience.

Smart AC control offers easy central management and maintenance.

Powered by adjustable signal strength and channel, the series guarantees reliable networking performance.

Dependable analysis tool on wireless interference helps increase WiFi performance.

The product offers periodic optimization and one button remote online upgrade.

It uses ZISA device and private protocol to relay, ensuring and steady and interference-free network.

The model is enlisted as a WeChat social WiFi certified device.

It builds a secured wireless network via WPA (WiFi Protected Access) acronyms.

#### Specifications

Model : W300a

Wireless Frequency : 2.4G

Antenna Type : 2 Internal Antennas

Gain : 3dBi

Transmit Power : 27dBm

Data Transfer Rate : 300Mbps

Wired Interface : 2 Fast Ethernet LAN Ports

Power Supply : 48V POE

Wireless Standards : IEEE802.11b/g/n

Concurrent Devices : 100+

WiFi Range : 40mu

### W120a 2.4G+5G,600M,1 GE LAN,Ceiling Mount

#### Features

The series operates in both the 2.4GHz and 5GHz frequency bands.

When device failures happen, you can get an alert and act accordingly.

Visual display delivers real-time monitoring of device status.

Intuitive wireless roaming enhances strong, steady and speedy networking experience.

Smart AC control offers easy central management and maintenance.

Powered by adjustable signal strength and channel, the series guarantees reliable networking performance.

Dependable analysis tool on wireless interference helps increase WiFi performance.

The product offers periodic optimization and one button remote online upgrade.

It uses ZISA device and private protocol to relay, ensuring steady and interference-free network.

The model is enlisted as a WeChat social WiFi certified device.

It builds a secured wireless network via WPA (WiFi Protected Access) acronyms.

## Specifications

Model : W120a

Wireless Interfaces : Dual Band (2.4GHz, 5GHz)

Antenna Type : 2 Internal Antennas

Gain : 3dBi

Transmit Power : 24dBm

Data Transfer Rate : 600Mbps

Wired Interface : One Gigabit LAN Port

Power Supply : 12V DC/48V PoE

Standards : IEEE802.11a/b/g/n

Concurrent Devices : 200+

WiFi Coverage : 35m

## W301a 2.4G,300M,2 FE LAN,Panel

### Features

One of the great things about the panel AP is that its 86 panel can match the deployment décor easily.

Power over Ethernet (PoE) makes wireless installation simpler, safer and less expensive.

Highly integrated Access Point simplifies technology deployments by allowing you to connect and power network endpoints over a single Ethernet cable. With no need to install separate telephone, wireless, and wired network, you can take advantage of advanced and highly integrated Access Point more quickly and at a lower cost.

### Specifications

Model : W301a

Wireless Frequency : 2.4G

Antenna type : Internal Antenna

Gain : 3dBi

Transmit Power : 18dBm

It builds a secured wireless network via WPA (WiFi Protected Access) acronyms.

Smart AC control offers easy central management and maintenance.

Powered by adjustable signal strength and channel, the series guarantees reliable networking performance.

Dependable analysis tool on wireless interference helps increase WiFi performance.

High data transfer rate meets the need to transfer high throughput traffic.

The product offers periodic optimization and one button remote online upgrade.

It uses ZISA device and private protocol to relay, ensuring a steady and interference-free network.

The model is enlisted as a WeChat social WiFi certified device.

When device failures happen, you can get an alert and act accordingly.

Visual display delivers real-time monitoring of device status.

## Outdoor Access Points

### W400a 2.4G,300M,Directional

#### Features

International outdoor weatherproof and lightning protection can withstand very harsh conditions.

It builds a secured wireless network via WPA (WiFi Protected Access) acronyms.

Smart AC control offers easy central management and maintenance.

Powered by adjustable signal strength and channel, the series guarantees reliable networking performance.

Dependable analysis tool on wireless interference helps increase WiFi performance.

It uses ZISA device and private protocol to relay, ensuring and steady and interference-free network.

The product offers periodic optimization and one button remote online upgrade.

The model is enlisted as a WeChat social WiFi certified device.

When device failures happen, you can get an alert and act accordingly.

Visual display delivers real-time monitoring of device status.

#### Specifications

Model : W400a

Wireless Frequency : 2.4G

Antenna : 2 Internal Antennas

Antenna Gain : 16dBi

Transmit Power : 27dBm

Data Transfer Rate : 300Mbps

Power Consumption : 8W

Power Supply : POE

Wireless Standards : IEEE802.11b/g/n

Concurrent Devices : 100+

Wireless Range : 1.5km

### W420a 2.4G,300M,Omnidirectional

#### Features

International outdoor weatherproof and lightning protection can withstand very harsh conditions.

It builds a secured wireless network via WPA (WiFi Protected Access) acronyms.

Smart AC control offers easy central management and maintenance.

Powered by adjustable signal strength and channel, the series guarantees reliable networking performance.

Dependable analysis tool on wireless interference helps increase WiFi performance.

The product offers periodic optimization and one button remote online upgrade.

It uses ZISA device and private protocol to relay, ensuring and steady and interference-free network.

The model is enlisted as a WeChat social WiFi certified device.

When device failures happen, you can get an alert and act accordingly.

Visual display delivers real-time monitoring of device status.

## Specifications

Model : W420a

Wireless Frequency : 2.4G

Antenna Type : 2 External Antennas

Gain : 8dBi

Transmit Power : 27dBm

Data Transfer Rate : 300Mbps

Power Consumption : 8W

Power Supply : PoE

Wireless Standards : IEEE802.11b/g/n

Concurrent Devices : 100+

Wireless Range : 100m

## W480a 2.4G+5G,1167M,Directional

### Features

The series operates in both the 2.4 GHz and 5 GHz frequency bands.

International outdoor weatherproof and lightning protection can withstand very harsh conditions.

It builds a secured wireless network via WPA (WiFi Protected Access) acronyms.

Smart AC control offers easy central management and maintenance.

Powered by adjustable signal strength and channel, the series guarantees reliable networking performance. Dependable analysis tool on wireless interference helps increase WiFi performance.

It uses ZISA device and private protocol to relay, ensuring a steady and interference-free network.

The product offers periodic optimization and one button remote online upgrade.

The model is enlisted as a WeChat social WiFi certified device.

When device failures happen, you can get an alert and act accordingly.

Visual display delivers real-time monitoring of device status.

### Specifications

Model : W480a

Wireless Frequency : Dual Band ( 2.4GHz and 5GHz )

Antenna Type : 2.4G Internal antenna 、 5G External antenna

Gain : 12dBi ( 2.4G ) 、 15dBi ( 5G )

Transmit Power : 27dBm

Data Transfer Rate : 1167Mbps

Power Consumption : 15W

Power Supply : POE

Wireless Standards : IEEE802.11 a/b/n/ac

Concurrent Devices : 200+

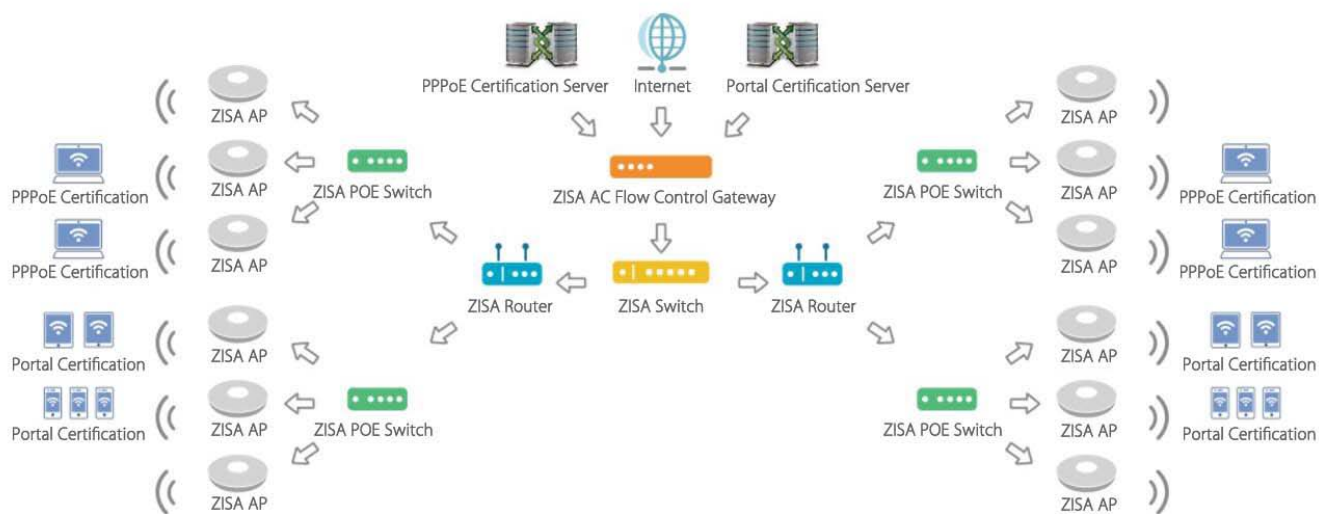

Wireless Range : 1.5km

Protection Class : IP67
